**Bra70. Ringer's Wood (6.0 ha) TL 757136**

Neglected Hornbeam (*Carpinus betulus*) and Small-leaved Lime (*Tilia cordata*) coppice, Pedunculate Oak (*Quercus robur*) and Ash (*Fraxinus excelsior*) standards are the main canopy components of Ringer's Wood. The shrub layer comprises Hawthorn (*Crataegus monogyna*), Midland Hawthorn (*C. laevigata*), Blackthorn (*Prunus spinosa*), Elder (*Sambucus nigra*) and Dogwood (*Cornus sanguinea*) over a relatively poor ground flora. A resumption of coppicing would greatly benefit the wildlife of this wood.

**Selection Criteria:** HCr1(a)
