Bra62. Bocking Special Roadside Verge (<0.1 ha) TL 747264

This small site on a bend in the road has been designated due to the presence of an interesting species mix. Black Knapweed (*Centaurea nigra*) dominates the flora on this verge. Other species include Meadow Vetchling (*Lathyrus pratensis*), Primrose (*Primula vulgaris*) and in particular Zigzag Clover (*Trifolium medium*), which has been in decline since the 1950's due to loss of permanent pasture.
