Bra149. Chapel Hill Meadow (1.8 ha) TL 805304

Located on the western outskirts of Halstead, Chapel Hill Meadow has a varied flora that reflects the poorly drained conditions. Typical damp grassland species include Marsh Marigold (*Caltha palustris*), Cuckooflower (*Cardamine pratensis*), Marsh Thistle (*Cirsium palustre*), Pignut (*Conopodium majus*) and Tufted Hair-grass (*Deschampsia cespitosa*). Other species of note are Common Spotted Orchid (*Dactylorhiza fuchsii*), Ragged Robin (*Lychnis flos-cuculi*) and Southern Marsh Orchid (*Dactylorhiza praetermissa*).

Selection Criteria: HCr10
