Bra73. Oak Wood (2.7 ha) TL 757270

This ancient wood has a canopy of Pedunculate Oak (*Quercus robur*), Ash (*Fraxinus excelsior*) and Field Maple (*Acer campestre*) and a Hazel (*Corylus avellana*) understorey. The poor ground flora is dominated by Dog's Mercury (*Mercurialis perennis*) and Bramble (*Rubus fruticosus* agg) and would benefit from a resumption of coppicing.

Selection Criteria: HCr1(a)
