RISING STAR?

Share your **passion**, shape their **destiny**
and realise your **business's potential**
with an **Essex Apprentice**

ESSEX APPRENTICESHIPS
BUILDING NEW FUTURES

Working in partnership with

Essex County Council

THIS IS YOUR CHANCE TO CATCH A RISING STAR

As part of its pledge to create over 1,000 new apprenticeships over the next two years, Essex County Council is offering wage subsidies to businesses across the county if they take on an apprentice.

If you are **passionate** about what you do, have **skills** and **expertise** to pass on and are able to provide a **supportive learning environment**, an **Essex Apprentice** will help your business to **shine**.

Businesses in **heating, ventilation and refrigeration, the marine sector, aviation, IT, construction, engineering and manufacturing or ports and logistics** can benefit:

- You will get a significant subsidy towards your apprentice's weekly wage
- You will receive help and support during the recruitment process
- Essex County Council will act as a link between your business and the apprentice's training provider
- An apprentice ensures a continuity of skill, placing your business on a path to a successful future
- Apprenticeships often bring loyalty, new ideas and innovation to businesses enabling expansion beyond your dreams

To qualify, your business should be located within Essex and should not have had an apprentice in the last two years, or, should be looking to expand the number of apprentices currently employed.

For the opportunity to pass on your star quality: email apprenticeships@essex.gov.uk
telephone **01245 438 815** or visit www.essex.gov.uk/essexapprentice
