Bra88. Grassall's Wood (11.5 ha) TL 765357

This large ancient wood has been almost entirely replanted with conifers, with a consequently poor ground flora. Removal of this timber and restocking with native species should be a primary aim. Only around the margins is there relict semi-natural woodland of Pedunculate Oak (*Quercus robur*), Ash (*Fraxinus excelsior*), Hornbeam (*Carpinus betulus*) and Hazel (*Corylus avellana*) over a modest ground cover.

Selection Criteria: HCr1(a)
