Bra31. Alder Car (2.5 ha), TL 708270

Located on the east side of Pods Brook, Alder Car does reflect its name in having Alder (*Alnus glutinosa*) on the lower slopes by the brook where the ground is generally wetter. However, the upper slopes have predominantly Oak (*Quercus robur*) standards with a Hazel (*Corylus avellana*) understorey. On these drier slopes Bracken (*Pteridium aquilinum*) and Bluebell (*Hyacinthoides non-scripta*) dominate the flora.

Selection Criteria: HCr2(b), HCr2(d)
