

BRAINTREE DISTRICT COUNCIL - IMPACT ASSESSMENT

WHY DO I NEED TO DO AN ASSESSMENT?

This Impact Assessment isn't designed to 'catch you out'. It is designed to help you think about and improve the way you deliver your services by ensuring that they are as inclusive as possible.

It will help you to test the impact on people when reviewing or developing new policies, strategies and functions to find out if there is any adverse impact or illegal discrimination or any unmet need or requirements.

Legislation imposes duties on local authorities to promote equality and tackle discrimination related to Age, Disability, Gender (includes marital status, gender reassignment), Race (colour, ethnic or national origin, nationality) Religion or Belief, Sexual Orientation,

However, we have also included discretionary but important additional categories relevant to our District in this assessment process: People Living in Rural Areas, People living in Urban Areas, People on Low Incomes and People for whom English is not their first Language.

To comply with legislation the Council is required to publish its Impact Assessments and these will be made available on our website.

WHAT HAS TO BE IMPACT ASSESSED?

You need to do an Assessment when reviewing, making changes to or developing new and existing policies, strategies and functions that are relevant to equality. This can be determined as follows:

RELEVANT – Impact Assessment must be done

- The policy, strategy or function will impact on people (residents, staff or people living, visiting or working in Braintree District)
- The policy, strategy or function may benefit some people or communities and not others

NOT RELEVANT – Impact Assessment not needed

- No intended impact on people
- The policy, strategy or function is administrative only

HOW DO I DO THIS ASSESSMENT?

By answering the questions in the following Assessment template you will be able to consider any possible positive or negative impacts that a new or existing policy, strategy or function may have on defined groups, using data as evidence, and take action accordingly.

NOTE: Direct Discrimination occurs when a person is treated less favourably than another in a comparable situation because of their racial or ethnic origin, gender, religion or belief, disability, age or sexual orientation.

Indirect Discrimination occurs when an apparently neutral provision or practice would disadvantage people on the grounds of racial or ethnic origin, gender, religion or belief, disability, age or sexual orientation, unless the practice can be objectively justified by a legitimate aim

Group	Direct Yes/No	Indirect Yes/No	If Yes state how
Age	No	No	
Disability	No	No	
Gender	No	No	
Race	No	No	
Religion/Belief	No	No	
Sexual Orientation	No	No	
Social Inclusion	No	No	

7. Referring to your answers to questions 5 and 6, can you easily minimize or remove any negative impacts identified and if so how?

Rural Proofing - There is no negative impact or discrimination to any equality group from the proposals as the service will be mainstreamed.

CLPs and VDSs – To address the risk of less support for the development, Parish Councils should meet the costs of engaging the RCCE from their own budgets.

As an interim measure, it is proposed that the Council continues to fund RCCE for the completion of CLPs and VDSs currently in progress until the end of 2011-12.

8. If the negative impacts cannot be minimized or removed, they need to be justified. Please explain how and what the evidence for this is.

You may want to refer back to the monitoring data you listed in Question 4 to answer this question.

9. If you have identified any impacts as positive in Question 5, are there any further ways in which you can adapt the policy, strategy or function to increase or extend its positive benefits for equality groups? Please explain your reasoning.

10. Based on the information you have now provided in this assessment please proceed as follows:

IMPACT ASSESSMENT ACTION PLAN

You now need to develop and implement an Action Plan to address the negative impacts identified that could not be minimized, removed or justified.

This should include more detailed research, further data collection or consultation with representatives from the equality group(s) who you have identified as being likely to suffer a negative impact/be disadvantaged by the Policy, Strategy or Function being assessed.

How frequently will this monitoring take place?	
Who will be responsible for this?
