Other **14.0%** (17.8%)

% of people aged 16 years and over in employment

Witham Central- Deprivation

Index of Multiple Deprivation (IMD) 2019

The map shows the spread of deprivation across the Braintree district at Lower Super Output areas. The most deprived areas are shaded blue, tend to be in the towns of Braintree, Halstead and Witham with the least deprived shaded light green or white in the more outer areas of the district.

Lower Super Output Areas (LSOAs) are small geographical units. Deprivation is measured using the Index of Multiple Deprivation (IMD) 2019. For each LSOA, a deprivation score is calculated covering a broad range of issues:

- Income
- Employment
- Health and disability
- Education and skills
- Housing and services
- Crime
- Living environment

There are wide inequalities between people living in areas of high levels of deprivation and those living in areas of low deprivation; more deprived populations generally have poorer outcomes in terms of health, education etc. All 87 LSOAs in the Braintree district are ordered by IMD score.

	Witham Central	Braintree	Essex	England
Index of Multiple Deprivation (IMD) Score	18.5	14.7	17.0	21.7

Household deprivation

Witham Central | (Braintree)

Household is not deprived in any dimension **48.4%** (50.0%)

Household is deprived in one dimension **32.3%** (34.1%)

Household is deprived in two dimensions **14.8%** (13.0%)

Household is deprived in three dimensions **4.1%** (2.7%)

Household is deprived in four dimensions **0.4%** (0.1%)

% of all households
