

**Horizon 120 Local Development Order (LDO)
Confirmation of Compliance Checklist Explanatory Note**

If you would like to undertake development under the Horizon 120 LDO, a completed compliance checklist must be submitted to the Council.

For plot development, this comprises the 'Plot Development Confirmation of Compliance Checklist' and for strategic infrastructure, this is the 'Strategic Infrastructure Confirmation of Compliance Checklist'. The relevant checklist must be completed in full and a signed copy submitted to the Council. These must be submitted by email with the required plans and documents to 'planapps@braintree.gov.uk'. Note the timeframes set out below are from receipt by the Council.

An overview of the Compliance Checklist process is given below:

Should the development receive consent under the LDO, please note it will still need to comply with the relevant conditions as set out within the Horizon 120 LDO. Consent under the LDO does not replace the need to comply with all other legislation and consents, including, but not limited to, building regulations, advertisement consent and relevant wildlife and ecological acts.

Strategic Infrastructure Confirmation of Compliance Checklist

References to the relevant section of the Design Code are given in the form of [DC X.X].

Please note all elements of the form must be completed in full and 'refer to plans' or similar is not an acceptable answer. Checklists will be rejected where such answers are given.
